KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:

Refer to the “Risk Factors, Investments, Derivatives and Supplementary Information” section of the Prospectus for further information on risks of the product.

Market and Credit Risks

You are exposed to market risk in Asia Pacific.

- The value of investments by the Fund may go up or down due to changing economic, political or market conditions, or due to an issuer’s individual situation.

Liquidity Risks

You are exposed to liquidity risk.

- There is no secondary market for the Fund. All redemption requests should be made to the distributor of the Fund through whom you had originally purchased the Shares. The liquidity of the Fund may be limited if a significant portion of the assets of the Fund is to be sold to meet redemption requests in a short time frame.

Product-Specific Risks

You are exposed to derivatives risk.

- The Fund may use derivatives as part of the investment process. The use of futures, options, warrants, forwards, swaps or swap options involves increased risk.

You are exposed to China country risk.

- Changes in China’s political, legal, economic or tax policies could cause losses or higher costs for the Fund.

You are exposed to counterparty risk.

- The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.

You are exposed to currency risk.

You are exposed to emerging and frontier markets risk.

- Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty and operational risk.

You are exposed to distribution policy risk (only applicable to Distribution Classes).

- In respect of a Distribution Class with fixed dividends, fixed dividends may be paid out of capital if investment income is less than the fixed dividend amount.
- In respect of a Distribution Class with variable dividends, the dividends are paid out of capital rather than out of investment income. Capital growth will be reduced and in periods of low growth, capital erosion may occur.
- Where dividends are paid out of capital of a Distribution Class, this will reduce the net asset value of the Distribution Class.

You are exposed to equity risk.

- Equity prices fluctuate daily, based on many factors including general, economic, industry or company news.

You are exposed to leverage risk.

- The Fund uses derivatives for leverage, which makes it more sensitive to certain market or interest rate movements and may cause above-average volatility and risk of loss.

You are exposed to Shanghai-Hong Kong/Shenzhen-Hong Kong Stock Connect risk.

- The Fund may be investing in China A-Shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may entail additional clearing and settlement, regulatory, operational and counterparty risks.

You are exposed to short selling risk.

- The Fund may take positions that seek to profit if the price of a security falls. A large rise in the price of the security may cause large losses.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

You may redeem Shares by completing a share redemption form ("Redemption Request") and submitting it to the relevant distributor through whom you originally purchased the Shares.

The directors of the Company reserve the right not to accept instructions to redeem (or switch) of more than 10% of the total value of the Shares in issue of the Fund on a Dealing Day. In these circumstances, the redemption of part or all Shares in excess of 10% will be deferred until the next Dealing Day.

The redemption proceeds are usually paid to you within 6 Business Days following the receipt of the Redemption Request by the Transfer Agent provided that the directors of the Company reserve the right to extend the period of payment of the redemption proceeds to such period, not exceeding 30 calendar days.

Your exit price is determined as follows:

- If you submit the Redemption Request by 5 pm Singapore time on a Singapore Business Day and such Redemption Request is accepted by the Transfer Agent by 1 pm Luxembourg time of the relevant Dealing Day, you will be paid a price based on the net asset value per Share on that Dealing Day.

The redemption proceeds that you will receive will be the exit price multiplied by the number of Shares redeemed. An example is as follows:

(Number of Shares)		(Net Asset Value per Share)		(Redemption Proceeds)
