Message by Chief Executive Officer

Dear Policyholders,

Thank you for making Zurich your choice of insurer. We are pleased to present the Semi-Annual Report of the Zurich Wealth Series Investment-Linked Policy (ILP) sub-funds for the six months ended 30 June 2017.

The first half of the year has been robust with improving economic environment and reduced political risk in Europe in particular. Synchronized global recovery across regions remains on track with stronger trade and investment.

Most of our ILP sub-funds delivered positive returns over the six months period. The ILP sub-funds investing in Greater China and Emerging Markets equities performed well with double digit return. Both the Henderson Horizon Fund - China Fund and JPMorgan Funds – Emerging Markets Equity Fund have registered more than 18% and 15% gains respectively. It was a challenging period for ILP sub-funds investing in the natural resources sector, which were affected by the market dynamics within the sector since the start of the year.

A slower pace of global economic expansion is expected for the rest of 2017, with the pace of interest rate hike by Federal Reserve and concerns over European banks possibly affecting market volatility ahead. Notwithstanding these, staying invested with a diversified portfolio is important to achieve your long-term financial goals.

Thank you to all our stakeholders – our customers, our people, our shareholders and the communities in which we live and work – for your support. At Zurich, we remain committed to helping you meet your investment needs. If you have general policy queries, you may contact our Zurich HelpPoint team at 6876 6750 or email us at helppoint.singapore@zurich.com and we will be happy to help.

Yours faithfully

David Kneale

Chief Executive Officer and Director
Zurich Life Insurance (Singapore) Pte. Ltd.

Expense ratio of the underlying fund share class

For the 12 months ended 30 June 2017	For the 12 months ended 30 June 2016
1.62%	1.66%

The following expenses are excluded from calculating the underlying fund's expense ratios:-

- * brokerage and other transactions costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- * foreign exchange gains and losses of the underlying fund, whether realised or unrealised;
- * front-end loads, back-end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund;
- * tax deducted at source or arising on income received including withholding tax;
- * interest expense; and
- * dividends and other distributions paid to shareholders.

The expense ratio of the underlying fund share class for the same reporting period as the ILP sub-fund (6 months ending 30 June 2017 and 30 June 2016), is not available.

Turnover ratio of the underlying fund

For the 12 months ended 30 June 2017	For the 12 months ended 30 June 2016
67.70%	70.81%

The turnover ratios are calculated based on the lesser of purchases or sales of underlying investments expressed as a percentage of daily average net asset value.

The turnover ratio of the underlying fund for the same reporting period as the ILP sub-fund (6 months ending 30 June 2017 and 30 June 2016), is not available.

Accounting policies

Notes to the financial statements for the financial period ended 30 June 2017. These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1.0 Accounting Policies

The principal accounting policies which have been applied in the preparation of these financial statements are set out below.

1.1 Basis of preparation

The financial statements are prepared in accordance with the historical cost convention, except for investments which are stated at fair value.

1.2 Cash received/paid in relation to unit creations/cancellations

Cash received by the fund comprises gross premiums received and switches between funds and is after deducting policy charges.

Cash paid by the fund for liquidation of units comprises the sale of units in the unit-linked fund for switches, the payment of death claims or surrenders.

Zurich Life Insurance (Singapore) Pte. Ltd. has dealing limits below which trades are not placed with internal or external funds. As a result investments into certain funds are not made until the dealing limit is met.

Notwithstanding this, policy holders are given the unit price on the date in which their investment is made ("investment date"). Any exposure to unit pricing fluctuations between the investment date and the actual trade date is borne by Zurich Life Insurance (Singapore) Pte. Ltd.

1.3 Investment income

Dividends are recognised when the right to receive payment is established. Other income is recognised on an accruals basis.

1.4 Realised and unrealised gains and losses

Realised and unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their purchase price or if they have been previously valued their valuation at the last balance sheet date. The movement in unrealised gains and losses recognised in the period also includes the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investments disposed of in the current period.

1.5 Foreign currencies

Foreign currency monetary assets and liabilities are translated at exchange rates prevailing at the balance sheet date. Foreign currency transactions are translated at exchange rates on transaction dates. Differences in exchange are included within the gains and losses on investments in the Capital and Income Account.

1.6 Annual management charge

The Funds are not subject to an annual management charge.

1.7 Expenses

Expenses are accounted for on an accruals basis.

1.8 Investments

Investment is classified as financial assets at fair value through profit or loss. Purchases of investment are recognised on the trade date and are initially recorded at fair value. Investment is subsequently carried at fair value. The fair value used for the investment held by the Sub-Fund is the current market quoted net asset value of the underlying fund at balance sheet date. Investment is derecognised on the date of disposal.

About us

Zurich Insurance Group

Zurich Insurance Group (Zurich) is a leading multi-line insurer that serves its customers in global and local markets. With about 55,000 employees, it provides a wide range of general insurance and life insurance products and services.
