MESSAGE BY PEARLYN PHAU, EXECUTIVE DIRECTOR AND GROUP CHIEF EXECUTIVE OFFICER, AVIVA SINGLIFE

"With the world showing promising signs of returning to some form of normality, we can expect the second half of 2021 to gleam with greater positivity."

DEAR POLICYHOLDERS,

After over a year of facing profound challenges from COVID-19, the roll-out of vaccines has forged a promising path and renewed optimism for the world to reopen and recover. Just the same, with our merger under way with Aviva Ltd., this marks an exciting new chapter as we join forces to become a stronger combined brand. We are excited to continue delivering trusted advice and enhance your digital connected financial experience.

As I present the Investment-Linked Policy (ILP) Sub-Funds Semi-Annual Report for the period ended 30 June 2021, I'm pleased to share that all of our 3 Singlife Grow portfolios have delivered positive returns since our public launch on 20 October 2020. In particular, our Dynamic portfolio which invests 80% into equity sub-funds delivered 20% returns since launch despite the unparalleled challenges we faced on the global front.

With the world showing promising signs of returning to some form of normality, we can expect the

second half of 2021 to gleam with greater positivity. To ensure you are on track towards your financial goals, we encourage you to evaluate your portfolio regularly and manage your wealth with a focus on the long-run.

All of us at Singlife are grateful to journey with you as your trusted financial partner and will look ahead to growing with you through a more hopeful and stronger second half of 2021.

Yours sincerely,

A stylized, handwritten signature in black ink, appearing to read 'P. Phau'.

Pearlyn Phau
Executive Director and Group Chief Executive Officer
Aviva Singlife Holdings Pte. Ltd.

Blackrock Global Funds (BGF) – US Dollar High Yield Bond Fund

Investments in Collective Investment Schemes

The BGF US Dollar High Yield Bond Fund seeks to maximise total return. The Fund invests at least 70% of its total assets in high yield fixed income transferable securities denominated in US dollars. The Fund may invest in the full spectrum of available fixed income transferable securities, including non-investment grade. Currency exposure is flexibly managed.

EASTSPRING INVESTMENTS

Eastspring Investments – Global Low Volatility Equity Fund

Investments in Collective Investment Schemes

This Fund aims to generate total returns in line with global equity markets, via a combination of capital growth and income, but with lower volatility. The Fund will invest primarily in equities and equity-related securities of companies, which are listed, or to be listed, on any global stock exchanges, including emerging markets worldwide. The Fund may also invest in depository receipts, including ADRs and GDRs, debt securities convertible into common shares, preference shares and warrants.

FIDELITY INTERNATIONAL

Fidelity Funds – World Fund

Investments in Collective Investment Schemes

The underlying Fund aims to achieve long-term capital growth from a portfolio primarily made up of the equity securities of companies around the world. The Investment Manager is not restricted in its choice of companies either by region, industry or size, and will select equity securities primarily based on the availability of attractive investment opportunities. As this underlying Fund may invest globally, it may be exposed to countries considered to be emerging markets. A minimum of 50% of the underlying Fund's net assets will be invested in securities deemed to maintain sustainable characteristics. The underlying Fund will consider a wide range of environmental and social characteristics on an ongoing basis. Environmental characteristics include, but are not limited to, climate change, mitigation and adaptation, water and waste management and biodiversity, while social characteristics include, but are not limited to, product safety, supply chain, health and safety and human rights. Environmental and social characteristics are analysed by Fidelity's fundamental analysts and rated through Fidelity Sustainability Ratings. The underlying Fund is actively managed. The Investment Manager will, when selecting investments for the underlying Fund and for the purposes of monitoring risk, reference MSCI World Index (the "Index") as the Index constituents are representative of the type of companies the underlying Fund invests in. The underlying Fund's performance can be assessed against its Index. The Investment Manager has a wide range of discretion relative to the Index. While the underlying Fund will hold assets that are components of the Index, it may also invest in companies, countries or sectors that are not included in, and that have different weightings from, the Index in order to take advantage of investment opportunities. It is expected that over long time periods, the underlying Fund's performance will differ from the Index. However, over short time periods, the underlying Fund's performance may be close to the Index, depending on market conditions. Shareholders' attention is drawn to the fact that the Index is not an index which integrates environmental and social considerations. Instead, the underlying Fund promotes environmental and social characteristics by adhering to the Fidelity Sustainable Investing Framework, as described above.

Expense ratio of the underlying fund share class

As at 30 April 2021 (un-audited)
1.89%

The following expenses are excluded from the calculation of the TER:

- (a) brokerage and other transaction costs associated with the purchase and sale of investments (such as register charges and remittance fees);
- (b) interest expenses;
- (c) foreign exchange gains and losses of the Sub-Fund, whether realised or unrealised;
- (d) front-end loads, back-end loads and other costs arising on the purchase or sale of a foreign unit trust or mutual fund;
- (e) tax deducted at source or arising from income received, including with holding tax (but the Tax D'Abonnement, a Luxembourg regulatory tax is included within the calculation of the TERs);
- (f) dividends and other distributions paid to shareholders; and
- (g) performance fees

Turnover ratio of the underlying fund

As at 30 April 2021 (un-audited)
27.46%

The turnover ratios are calculated based on the lesser of purchases or sales of underlying investments of a Sub-Fund expressed as a percentage over daily average net asset value

Expense ratio of the underlying fund share class

For the 12 months ended 31 December 2021

1.80%

The expense ratio does not include (where applicable) brokerage and other transaction costs, performance fee, foreign exchange gains or losses, front or back end loads arising from the purchase or sale of other schemes and tax deducted at source or arising out of income received.

**Expense ratios are calculated in accordance with the guidelines dated 16 May 2008 issued by the Swiss Funds & Asset Management Association (SFAMA). On 25 September 2020, SFAMA and the Asset Management Platform (AMP) Switzerland merged to form the Asset Management Association Switzerland (AMAS). The Total Expense Ratio ("TER") represents the total operating costs as a percentage of the Sub-Fund's average daily net assets. The total operating cost comprises investment management and advisory fees, custodian fees, taxe d'abonnement and other expenses, as summarised in the Combined Statement of Operations and Changes in Net Assets. Overdraft interest and Performance Fees are excluded from the calculation.*

Turnover ratio of the underlying fund

For the 12 months ended 30 June 2021

42.33%

The underlying fund manager calculates turnover ratio based on the lesser of purchases or sales of underlying investments of the underlying fund expressed as a percentage of daily average net asset value.

**Calculation methodology based on IMAS guidelines: The Turnover Ratio = Lesser of purchases or sales of underlying investments of a scheme expressed as a percentage of daily average net asset value.*

Performance of the ILP sub-fund as at 30 June 2021

Returns are calculated up to the fund's last HK dealing day in the month. 31 Dec 2020 is declared as a non-dealing day but it will be included for performance calculation if it is a valuation date for the fund. For periods over 1 year, performance shown is annualised.

^ Annualized Performance

*Cumulative Performance is used since it is less than one year.

NEUBERGER BERMAN

Neuberger Berman Strategic Income Fund

Investments in Collective Investment Schemes

The Neuberger Berman Strategic Income Fund aims to maximise total return through high current income and long-term growth from investments in fixed and floating rate bonds (debt securities) under varying market environments and with a focus on downside protection. The fund will invest primarily in debt securities issued by US corporations or by the US government and its agencies. Investments may be made in investment grade, high yield or unrated debt securities. Investment grade refers to sovereign and corporate bond issuers with a higher credit rating. High yield bonds have a lower credit rating because they carry a greater risk of not being paid back. High yield bonds typically offer a higher income to make them attractive to investors.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of preparation

The financial statements of the Investment-linked funds of Singapore Life Pte. Ltd. ("the Company") are presented in Singapore dollars. The financial statements have been prepared on the historical cost basis, except for investments which are carried at fair value.

1.2 Investments

All purchases of investments are recognised on their trade dates, i.e. the date the commitment exists to purchase the investments. The investments are initially recorded at cost, being the fair value of the consideration given. Subsequent to initial recognition, the investments are recorded at fair value and the unrealised gains or losses on re-measurement to fair value are taken to the Capital and Income Account. The fair value is determined by using open market valuation at the year-end date.

1.3 Amounts received/ paid in relation to unit creations/ liquidation

Cash received by the fund comprises gross premiums received and switches between funds and is after deducting policy charges.

Cash paid by the fund for liquidation of units comprises the sale of units in the unit-linked fund for switches, the payment of death claims or surrenders.

Singapore Life Pte. Ltd. has dealing limits below which trades are not placed with external funds. As a result investments into certain funds are not made until the dealing limit is met.

Notwithstanding this, policy holders are given the unit price on the date in which their investment is made ("investment date"). Any exposure to unit pricing fluctuations between the investment date and the actual trade date is borne by Singapore Life Pte. Ltd.

1.4 Realised and unrealised gains and losses

Realised and unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their purchase price or if they have been previously valued at the last balance sheet date. The movement in unrealised gains and losses recognised in the period also includes the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investments disposed of in the current period.

1.5 Foreign currencies

Foreign currency monetary assets and liabilities are translated at exchange rates prevailing at the balance sheet date. Foreign currency transactions are translated at exchange rates on transaction dates. Differences in exchange are included within the gains and losses on investments in the Capital and Income Account.

1.6 Annual management charge

The Funds are not subject to an annual management charge.

1.7 Expenses

Expenses are accounted for on an accruals basis.

ABOUT US

Singlife is a local life insurance company licensed by the Monetary Authority of Singapore. We were built because we believe that the world needs a better kind of insurance company: using the smartest technologies to make insurance totally digital, with automated efficiencies to make it more convenient and affordable.

As one of the leading digital life insurers in Singapore, we deliver digital-first journeys by offering life insurance and savings products made exceedingly efficient through the use of cutting-edge technology. With our product verticals of 'Manage, Grow & Protect', we empower consumers through a connected financial experience by harnessing convenience, transparency and accessibility. We cater to the protection, savings, investment, retirement and lifestyle needs of consumers from all walks of life.

Singlife continues to harness the value that technology brings, which is to help our consumers overcome the inertia of unlocking the potential of their money. We remain dedicated to helping you live your best life.
