- The Underlying Fund’s investment objective is long-term total return.

Refer to “abrdn SICAV I” and “The Sub-Funds” of the Underlying Fund’s Prospectus for further information on features of the sub-fund.

<sup>1</sup> For ILP sub-funds that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

<sup>2</sup> In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

(a) to invest only in deposits or other Excluded Investment Products; and

(b) not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of “Excluded Investment Product” can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <https://www.mas.gov.sg/regulation/notices/notice-faa-n16>.

\* 12 February 2009 is the launch date of the ILP sub-fund. Previously known as 15 August 2001, which was the Underlying Fund’s launch date.

Investment Strategy	
<ul style="list-style-type: none"> <li>The Underlying Fund will invest at least two-thirds of the Underlying Fund's assets in fixed interest securities which are issued by corporations with their registered office in, and/or government related bodies domiciled in an Emerging Market country.</li> </ul>	Refer to "Investment Objective, Policy and Strategy" of the Underlying Fund's Prospectus for further information on the investment strategy of the sub-fund.
Parties Involved	
<b>WHO ARE YOU INVESTING WITH?</b> <ul style="list-style-type: none"> <li>The Umbrella of the Underlying Fund is abrdn SICAV I i.e the "Company".</li> <li>The Management Company of the Underlying Fund is abrdn Investments Luxembourg S.A.</li> <li>The Investment Manager of the Underlying Fund is abrdn Investments Limited.</li> <li>The Depositary Bank of the Underlying Fund is BNP Paribas, Luxembourg Branch.</li> </ul>	Refer to "abrdn SICAV I", "Management", "Other Parties", and "Insolvency of Parties" of the Underlying Fund's Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
<b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b> The value of the ILP sub-fund may rise or fall. The following key risk factors may cause you to lose some or all of your investment:	Please refer to Risk Factors of the Underlying Fund's Prospectus for further information on the risks of the sub-fund.
Market and Credit Risks	
<b>You may be exposed to Emerging Markets Risk</b> <ul style="list-style-type: none"> <li>The Underlying Fund invests in Emerging Markets which tend to be more volatile than mature markets and its value could move sharply up or down. In some circumstances, the underlying investments may become less liquid which may constrain the Investment Manager's ability to realise some or all the portfolios. The registration and settlement arrangements in Emerging Markets may be less developed than in more mature markets so the operational risks of investing are higher. Political risks and adverse economic circumstances are more likely to arise.</li> </ul>	
Liquidity Risks	
<b>The ILP sub-fund is not listed on the Singapore Exchange and you can redeem only on Business Days through Singapore Life Ltd. In respect of Singapore investors, there is no secondary market for the ILP sub-fund.</b>	
Product-Specific Risks	
<b>You are exposed to the Interest Rate Risk and Credit Risk.</b> <ul style="list-style-type: none"> <li>The Underlying Fund's underlying investments are subject to interest rate risk and credit risk. Interest rate fluctuations affect the capital value of investments. Where long-term interest rates rise, the capital value of bonds is likely to fall and vice versa. Credit risk reflects the ability of a bond issuer to meet its obligations. Where a bond market has a low number of buyers and/or a high number of sellers, it may be harder to sell particular bonds at an anticipated price and/or in a timely manner.</li> </ul> <b>You are exposed to Sub-investment Grade Bonds Risk.</b> <ul style="list-style-type: none"> <li>The Underlying Fund invests in fixed interest securities, including sub-investment grade securities. Consequently, the Underlying Fund's portfolio may have a significant</li> </ul>	

position in sub-investment grade bonds, which means that there is more risk to investor's capital and income than from a fund investing in government or investment grade bonds.

**You are exposed to Contingent Convertible Bonds Risk.**

- The Underlying Fund may be invested in contingent convertible bonds. If the financial strength of a bond's issuer falls by a predetermined threshold, the bond may suffer substantial or total losses of capital.

**You are exposed to Currency Risk**

- Where the currency of the Underlying Fund varies from the currency invested, or where the currency or where the currency of the Underlying Fund varies from the currencies of the markets in which the Underlying Fund invests, you will be exposed to exchange rate risks and there is the prospect of additional loss (or the prospect of additional gain) to the investor greater than the usual risks of investment.
- The Underlying Fund is not denominated in SGD and the Share Classes may not be denominated in SGD. Except the hedged Share Classes, the Portfolio Manager does not intend to hedge against currency fluctuations between the SGD and that of the currency of account of the Underlying Fund and between the SGD and that of the currency denomination of the Share Classes. You may therefore be exposed to this exchange rate risk.
