Investment Strategy

<ul style="list-style-type: none"> This thematic Underlying Fund aims at helping or accelerating the transition into a sustainable world by focusing on challenges related to the environment. At all times, this Underlying Fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by companies that conduct a significant part of their business in Environmental markets. “Environmental markets” include, but not limited to, Renewable & Alternative Energy, Energy Efficiency, Water Infrastructure & Technologies, Pollution Control, Waste Management & Technologies, Environmental Support Services, and Sustainable Food. The remaining portion, namely a maximum of 25% of its assets, may be invested in any other transferable securities (including P-Notes), money market instruments, and/or cash, and also, within a limit of 15% of the assets, in debt securities of any kind and, within a limit of 10% of the assets, in UCITS or UCIs. In respect of the above investments limits, the Underlying Fund’s investments into “China A-Shares” via the Stock Connect may reach up to 25% of its assets. <u>Sustainable Investment policy</u> The Investment Manager applies also BNP PARIBAS ASSET MANAGEMENT’s Sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investments of the Underlying Fund, falling under Sustainable Plus/Thematic category as set out in Book I of the Underlying Fund’s Luxembourg Prospectus. The ESG analysis applies to at least 90% of the issuers in the Underlying Fund and along with its thematic focus leads to a reduction of at least 20% of the investment universe, being the large and mid-cap companies across the main markets of developed countries. This approach is supported by an active program of engagement with companies on a range of ESG factors, as well as proxy voting. Impact measurement and reporting* is also undertaken to provide post-investment evidence of the intention to help accelerate the transition to a more sustainable economy. *The impact report is available on the following link: https://www.bnpparibasam.lu/investisseur-prive-particulier/fundsheets/actions/bnp-paribas-globalenvironment-classic-clu0347711466/?tab=documents. The Underlying Fund is categorized as Article 9 under Sustainable Finance Disclosure Regulation. <u>Derivatives and Securities Financing Transactions</u> Core financial derivative instruments may be used for efficient portfolio management and hedging as described in points 2 and 3 of Appendix 2 of Book I of the Underlying Fund’s Luxembourg Prospectus. 	<p>Please refer to the Underlying Fund’s Luxembourg Prospectus, Book II, for further information on investment strategy of the Sub-Fund.</p>
