Soft Dollar Commissions or Arrangements

The Manager and Neuberger Berman Investment Advisers LLC may engage in soft commission arrangements with brokers in managing the Company and the Underlying Funds. Goods and services provided by the brokers under soft commission arrangements may include research, statistical and other information and assistance.

To mitigate the potential conflicts of interest arising from the soft commission arrangements, the Manager and Neuberger Berman Investment Advisers LLC shall ensure that, in selecting brokers to make purchases and sales for the Company for the account of an Underlying Fund, (i) the transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates; (ii) the availability of soft commission arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer; and (iii) the benefits provided under any soft commission arrangements must assist in the provision of investment services to the Company and be of demonstrable benefit to the Shareholders.

Please refer to the “Conflicts of Interest” sub-section under the section entitled “General” of the Underlying Fund’s prospectus for further details relating to the Underlying Fund.

Conflicts of Interest

While a conflict of interest may arise when the Manager simultaneously manages Underlying Funds that charge only management fees and Underlying Funds that charge both management fees and performance fees, in that an Underlying Fund with a performance fee will offer the potential for higher profitability when compared to an Underlying Fund with only a management fee, the Manager has appropriate policies and procedures in place to manage any such potential and actual conflicts of interest, including policies to ensure investment opportunities are allocated on a fair and equitable basis, and without regard to whether any performance fees are charged to an Underlying Fund.

The Interested Parties (as defined in the Underlying Fund’s prospectus) may invest in, directly or indirectly, or manage or advise other investment funds or accounts which invest in assets which may also be purchased or sold by the Company. Subject to applicable law, the Interested Parties may purchase or sell securities of, or otherwise invest in or finance, issuers in which the Company has an interest. The Interested Parties also may manage, advise or service other accounts or investment funds that have investment objectives similar or dissimilar to those of the Company and which engage in transactions in the same type of securities, currencies and instruments as the Company. Trading activities of the Interested Parties are carried out without reference to positions held directly or indirectly by the Company and may have an effect on the value of the positions so held or may result in the Interested Parties having an interest adverse to that of the Company. The Interested Parties are under no obligation to offer investment opportunities of which any of them becomes aware to the Company or to account to the Company in respect of (or share with the Company or inform the Company of) any such transaction or any benefit received by any of them from any such transaction, but will allocate any such opportunities on an equitable basis between the Company and other clients. As a result, the Interested Parties may compete with the Company for appropriate investment opportunities.
