Risks

The ILP sub-fund is not listed on the Singapore Exchange and you can redeem only on Business Days through Singapore Life Ltd. In respect of Singapore investors, there is no secondary market for the ILP sub-fund.

Please refer to the section on "Risk Factors" in the respective Underlying Fund's Prospectus for a description of the risk factors associated with investing in Fundsmith SICAV funds. The risks may include:

Currency Risk

The Underlying Fund's portfolio is a global portfolio and many of the investments are not denominated in Euros. There is no currency hedging made by the Underlying Fund. The price of the shares may therefore rise or fall purely on account of exchange rate movements.

Concentration Risk

The Underlying Fund's portfolio complies with the UCITS requirements on spread of investment. Having said that, application of the investment criteria described above significantly limits the number of potential investments: the Underlying Fund generally invests in

20 to 30 stocks and so it is more concentrated than many other Underlying Funds. This means that the performance of a single stock has a greater effect on the price of the Underlying Fund.

Operational Risk

Failures or delays in operational processes may negatively affect the Underlying Fund.

Sustainability risk

The Underlying Fund is subject to the risk that environmental, social or governance conditions or events may occur that may have a material negative impact on the value of its investments.

The above should not be considered to be an exhaustive list of the risks which you should consider before investing into the Underlying Fund. You should be aware that an investment in the Underlying Fund may be exposed to other risks of an exceptional nature from time to time. Please refer to the Underlying Fund's Prospectus for further details.
