Liquidity Risks				
The ILP sub-fund is not listed on the Singapore Exchange and you can redeem only on				
Business Days through Singapore Life Ltd. In respect of Singapore investors, there is no				
secondary market for the ILP sub-fund.				
Product-Specific Risks You may be exposed to company-specific risk				
• The value of the Underlying Fund's assets may drop significantly and for an extended				
period of time if company -specific factors deteriorate.				
You may be exposed to derivatives risk				
• (i) the derivatives may be misvalued or may have varying valuations; (ii) the use of				
derivatives may not completely hedge the risk intended to be hedged; (iii) derivative				
may become difficult to sell. In such cases, the Underlying Fund may not be able to				
liquidate a position at an appropriate time or price; (iv) there is also a creditworthiness				
risk; (v) given the leverage effect embedded in derivatives, even a small investment in derivatives could have a substantial, even negative, effect on the performance of the				
Underlying Fund.				
You may be exposed to the risk of interest rate changes				
• If market interest rates rise, the value of the interest -bearing assets held by the				
Underlying Fund may decline substantially. This applies to an even greater degree if				
the Underlying Fund also holds interest -bearing securities with a longer time to				
maturity and a lower nominal interest rate.				
 You may be exposed to downgrading risk The credit rating of interest bearing securities held by the Underlying Fund may be 				
• The credit rating of interest bearing securities near by the Onderlying Fund may be downgraded. The Underlying Fund may or may not be able to dispose of the securities				
that are being downgraded. This may lead to a fall in the net asset value of the				
Underlying Fund.				
You may be exposed to the risk of investing in high - yield investments and convertible				
bonds				
• These risks include increased creditworthiness risk, risk of interest rate changes,				
general market risk, company -specific risk, risk of default, prepayment risk and liquidity risk				
liquidity risk . You may be exposed to valuation risk				
• Valuation of the Underlying Fund assets may involve uncertainties and judgmental				
determinations which may affect the net asset value calculation of The Underlying				
Fund				
You may be exposed to credit rating risk				
• Credit ratings assigned by rating agencies are subject to limitations and do not				
guarantee the creditworthiness of the security and/or issuer at all times. You may be exposed to asset allocation risk				
• There is no assurance that the strategy employed by the Underlying Fund will be				
successful and therefore the investment objective of the Underlying Fund may not be				
achieved. The investments of the Underlying Fund may be periodically rebalanced and				
therefore may incur greater transaction costs.				
The net asset value of the Underlying Fund may likely have a high volatility due to the				
investment policies or portfolio management techniques employed in respect of the Underlying Fund.

APPENDIX: GLOSSARY OF TERMS		
Business Day:	Means each day on which banks and exchanges in Luxembourg are open for business. For the avoidance of doubt, half-closed bank business days in Luxembourg are considered as being closed for business.	
Debt Securities:	means any security which bears interest, including, but not limited to, government bonds, money market instruments, mortgage bonds and similar foreign asset-backed securities issued by financial institutions, public-sector bonds, floating-rate notes, instruments with loss-absorption features (including, but not limited to contingent convertible bonds), convertible debt securities, corporate bonds, ABS and MBS, as well as other collateralised bonds. Convertible debt securities include, but are not limited to, convertible bonds, bonds with warrants and/or equity warrant bonds. Debt securities also include index certificates and other certificates with a risk profile that typically correlates with the aforementioned assets or with the investment markets to which these assets can be allocated, as well as non-interest bearing securities such as zero coupon bonds.	
Deposits:	Means time deposits and/or deposits at sight with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a member state of the European Union or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the Commission de Surveillance du Secteur Financier as equivalent to those laid down in EU law.	
Emerging Markets:	Means a country which is not classified by the World Bank as a high-income economy (high gross national income per capita).	
Equities:	Means all equities and similar securities, including but not limited to, preference shares, convertible preference shares, equity warrants, depositary receipts (e.g. American depositary receipts, global depositary receipts), REIT equities, REIT units, equity linked notes, warrants to subscribe for equities. Equities also include index certificates, equity certificates, other comparable certificates and equity baskets as well as assets whose risk profile correlates with the relevant equity or with the investment markets to which these assets can be allocated.	
High-Yield Investments Type 1:	Means an investment in debt securities which at the time of acquisition has a rating of BB+ or below (Standard & Poor's and Fitch) or of Ba1 or below (Moody's) or the equivalent by another rating agency or, if unrated, as determined by the Investment Manager to be of comparable quality. In case of a minimum (maximum) investment limit of High-Yield Investment Type 1 securities according to The Underlying Fund's investment restrictions, the lowest (highest) available rating of a debt security at acquisition day is decisive for the assessment of the possible acquisition of such debt security as High-Yield Investment Type 1. Generally, there is no intention to acquire debt securities that are only rated CC, C or D (Standard & Poor's), C, RD or D (Fitch) or Ca or C (Moody's) unless otherwise specified.	
Money Market Instruments:	Means Debt Securities and other instruments with short-term maturities (included, but not limited to treasury bills, certificates of deposits, commercial papers and bankers' acceptance etc.) at the time of acquisition	
Underlying Fund	Allianz Global Investors Fund - Allianz Income and Growth AM H2-SGD	
Valuation/ Dealing Day:	Means each day on which banks and exchanges in Luxembourg and the United States are open for business.
