**KEY FEATURES OF THE SUB-FUND**

**WHAT ARE YOU INVESTING IN?**

- You are investing in an ILP sub-fund that feeds 100% into an Underlying Fund, a sub-fund of an umbrella type open-ended investment company incorporated with limited liability under the laws of Ireland, authorised by the Central Bank of Ireland as a UCITS
- The investment objective of the Underlying Fund is to seek high current income, consistent with prudent investment management and sustainable investing (by explicitly integrating environmental, social and governance ("ESG") factors into the investment process). Long-term capital appreciation is a secondary objective.

Refer to "Investment Objectives and Policies" and "Dividends and Distribution" of the Underlying Fund's Irish Prospectus and for further information on features of sub-fund.

<sup>1</sup> For ILP sub-fund that feed 100% into an underlying CIS fund, some of the information provided below could be similar to the underlying CIS fund.

<sup>2</sup> In order for units in the ILP sub-fund to be classified as Excluded Investment Products, the investment objectives and investment focus of the ILP sub-fund, and investment approach of the manager have to be stated in the product summary:

- (a) to invest only in deposits or other Excluded Investment Products; and
- (b) not to engage in securities lending or repurchase transactions for the ILP sub-fund.

The definition of "Excluded Investment Product" can be found in Annex 1 to the Notice on Recommendations on Investment Products [Notice No. FAA-N16] at <https://www.mas.gov.sg/regulation/notices/notice-faa-n16>

<sup>3</sup> Expense ratio is unavailable as the Underlying Fund was launched less than 12 months.

The Underlying Fund is diversified broadly across regions, industries, issuers, and asset classes, as well as through multiple sources of value.</li> <li>The Underlying Fund seeks to promote environmental and social characteristics under normal market conditions in various ways set out below and in the Supplement. However, the Index is not used to define the portfolio composition of the Underlying Fund or as a performance target.</li> <li>The Underlying Fund may invest in both investment grade securities and high yield securities ("junk bonds"), subject to a maximum of 50% of its total assets in securities rated below Baa3 by Moody's, or equivalently rated by S&amp;P or Fitch, or if unrated, determined by the Investment Advisor to be of comparable quality (except the Underlying Fund can invest without limitation in ABS and MBS).</li> <li>The Underlying Fund may invest up to 20% of its total assets in Fixed Income Instruments economically tied to emerging market countries.</li> <li>No more than 10% of the Underlying Fund's total assets may be invested in Equity Securities and equity related securities (such as warrants and preferred stock).</li> <li>The Underlying Fund may use derivative instruments such as futures, options, options on futures and swap agreements (listed or over-the-counter) and may also enter into currency forward contracts.
