# How Singlife Secure Saver VII works

Linda, who's 40 years old, wants to boost her savings in the short term.

She chooses to grow her money with Singlife Secure Saver VII, paying a single premium of S\$200,000.

At the end of her second policy year, she receives a Guaranteed Maturity Benefit of S\$213,840.

**Important notes:**

\* For short-term endowment plans.

- <sup>1</sup> The guaranteed yield of 3.40% per annum upon maturity is based on the Life Assured surviving until the end of the policy term with no surrender or claims made during the entire policy term. If the policy is still in force on the policy maturity date, Singapore Life Ltd. will pay the Guaranteed Maturity Benefit which is 106.92% of the single premium less any monies owed to Singapore Life Ltd.

This policy is underwritten by Singapore Life Ltd. Singlife Secure Saver VII is available on a first-come, first-served basis and is only available for purchase while the acceptance tranche is still open. Singapore Life Ltd. reserves the right to decline applications that are incomplete, including cases of unsuccessful payment, without prior notice.

You may get a copy of the Product Summary from Singapore Life Ltd. and participating distributors' offices. You should read the Product Summary before deciding whether to purchase the product. You may wish to seek advice from a financial adviser representative before making a commitment to purchase the product. If you choose not to seek advice from a financial adviser representative, you should consider whether the product in question is suitable for you.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. This is not a contract of insurance. Full details of the standard terms and conditions of this policy can be found in the relevant policy contract.
